

Bonded Asbestos Removal Course 32688B (for operational workers)

This course is essential for any operational workers who may come into contact with Bonded Asbestos in their work roles, such as Council Rangers, Landfill Operators, Plumbers, Builders, Renovators, Demolition Workers etc., On completion of the course, participants will receive a Certificate of Completion, which is approved by WorkCover NSW.

NB Anyone undertaking the commercial removal of bonded asbestos will need to subsequently apply to WorkCover NSW for a removal licence, which requires successful completion of the Supervisors course (see notes on page 2 of this brochure). Neither of the Bonded Asbestos courses covers the removal of Friable Asbestos in detail.

Course content includes:

- Identification of Types of Asbestos
- Health Effects
- Regulatory Requirements
- Code of Practice and Other guidelines
- Sampling and Removal
- Personal Protective Equipment
- Suitable Tools
- Monitoring
- Decontamination of People and Soil
- Waste Collection, Transport and Disposal

DURATION: 4 hrs (1/2 day)

WHO SHOULD ATTEND THE COURSE?

This course is suitable for all workers concerned with the safe identification, handling and removal of asbestos.

Prerequisites

Completion of the WorkCover NSW General OHS Induction Certificate

Each participant receives

1. Workshop handouts
2. Certificate of Attainment and Wallet Card

Note: Bonded asbestos licence

Since 1 January 2008, a bonded asbestos licence has been required to remove more than 10 square metres of bonded asbestos material. A licensed bonded asbestos removalist can remove any amount of bonded asbestos material.

To obtain a bonded asbestos licence you must undertake a WorkCover-recognised training course in bonded asbestos removal and bonded asbestos supervision. You must then apply to WorkCover on the prescribed form and attach copies of your training records, workers compensation policy, and evidence of your experience in bonded asbestos removal or associated building trades.

The following are key conditions of **maintaining a bonded asbestos licence**:

- all bonded asbestos removal work must be notified to WorkCover in the prescribed manner at least
- seven days prior to the work being carried out.
- the work is to be supervised by a person with appropriate qualifications and experience, and who is
- nominated by the licence holder to be recorded on WorkCover's licensing system.
- all those involved in bonded asbestos removal must have undertaken WorkCover-recognised training in bonded asbestos removal.

A course brochure for the Bonded Asbestos Supervisors Course (32688S) is available from our website. To register for any of our courses, please complete a registration form at www.lgti.com.au and submit online; or you can fax to the Local Government Training Institute on (02) 4966 0655
