Hunter Councils

TRAFFIC MANAGEMENT SERVICES

Planning to stop or disrupt traffic? Talk to our experienced consultants first

Our experienced consultants can assist your organisation to increase productivity, meet legislative requirements, increase safety and minimise delays to traffic movements!

We provide the following services:

- Consultation on road construction or road maintenance-related traffic management issues
- Design of new traffic management plans including traffic control and vehicle movement plans, using the latest Rapid-Draw Invarion software
- Audit of traffic control layouts or worksites
- Provision of documentation to comply with WorkCover and RTA requirements
- Assistance with record-keeping and reporting as required
- Training in all levels of RTA accredited Traffic Control courses
